

Homegrown Provisioning Center

iOs / iPad Application

With an already established brand, Homegrown Provisioning Center developed an application for our customer's and enthusiasts alike to stay informed on current news within the industry and within our company.

As enthusiasts ourselves, experts here at Homegrown find it important for our customers to be fully aware of everything affect them and their medicine. This app will provide a newsfeed of all current MMMP laws and changes as this industry continues to develop. This app will also provide our customers with product information, sales, promotions and giveaways! Homegrown Provisioning Center app will be a one stop shop for all information regarding MMMP laws and store activities.
